Company Name ("Carrier"): High Plains Telecommunications, Inc.

STATEMENT

Carrier has established operating procedures that ensure compliance with the Federal Communication Commission ("Commission") regulations regarding the protection of customer proprietary network information ("CPNI").

- Carrier has adopted a manual and keeps it updated with FCC CPNI rule revisions, and has designated a CPNI compliance officer to oversee CPNI training and implementation.
- Carrier continually educates and trains its employees regarding the appropriate use of CPNI. Employees are provided with a continually updated Code of Ethics that includes the Commission's regulations regarding the protection of CPNI. Carrier has established disciplinary procedures should an employee violate the CPNI procedures established by Carrier.
- Carrier has implemented a system whereby the status of a customer's CPNI approval can be determined prior to the use of CPNI.
- Carrier maintains a record of its and its affiliates' sales and marketing campaigns that use its customers' CPNI. Carrier also maintains a record of any and all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as a part of the campaign.
- Carrier has established a supervisory review process regarding compliance with the CPNI rules with respect to outbound marketing situations and maintains records of carrier compliance for a minimum period of one year. Specifically, Carrier's sales personnel obtain supervisory approval of any proposed outbound marketing request for customer approval regarding its CPNI, and a process ensures that opt-out elections are recorded and followed.
- Carrier has implemented procedures to properly authenticate customers prior to disclosing CPNI over the telephone, at Carrier's retail locations, electronically or otherwise, in connection with these procedures. Carrier has established a system of personal identification numbers (PINs), passwords and back-up authentication methods for all customer and accounts, in compliance with the requirements of applicable Commission rules.
- Carrier has established procedures to ensure that customers will be immediately notified of account changes including changes to passwords, back-up means of authentication for lost or forgotten passwords, or address of record.

- Carrier has established procedures to notify law enforcement and customer(s) of unauthorized disclosure of CPNI in accordance with FCC timelines.
- Carrier took the following actions against data brokers in 2008, including proceedings instituted or petitions filed by Carrier at a state commission, in the court system, or at the Federal Communications Commission: No actions taken
- The following is information Carrier has with respect to the processes pretexters are using to attempt to access CPNI, and [if any] what steps carriers are taking to protect CPNI: No information received
- The following is a summary of all customer complaints received in 2008 regarding the unauthorized release of CPNI:
 - Number of customer complaints Carrier received in 2008 related to unauthorized access to CPNI, or unauthorized disclosure of CPNI: No complaints received
 - Category of complaint:
 - 0 Number of instances of improper access by employees
 - 0 Number of instances of improper disclosure to individuals not authorized to receive the information
 - 0 Number of instances of improper access to online information by individuals not authorized to view the information
 - 0 Number of other instances of improper access or disclosure
 - Summary of customer complaints received in 2008 concerning the unauthorized release of CPNI: Not Applicable
